PROFESSIONAL SUMMARY

Lead Infrastructure Engineer with 10+ years of experience architecting and operating large-scale cloud infrastructure. Expert in multi-cloud strategies, infrastructure automation, and building high-performing engineering teams. Track record of leading infrastructure modernization initiatives and establishing DevOps practices in enterprises. Strong technical leadership combined with hands-on execution capabilities.

WORK EXPERIENCE

Lead Infrastructure Engineer

2020 - Present

Company 293, Herzliya

- Lead infrastructure team of 10 engineers supporting 100+ microservices
- Architected multi-cloud strategy reducing costs by \$2M annually while improving reliability
- Designed and deployed Kubernetes platform serving 500+ developers across 3 regions
- Established SRE practices including SLO frameworks, error budgets, and on-call rotation
- Led migration from legacy data center to AWS/GCP hybrid cloud over 18 months
- Implemented infrastructure automation reducing provisioning time from days to hours
- Drove adoption of GitOps and infrastructure-as-code across engineering organization
- Mentored senior and mid-level engineers, conducted technical interviews

Senior DevOps Engineer

2017 - 2020

Company 020, Tel Aviv

- Led DevOps transformation initiatives for enterprise clients
- Built CI/CD pipelines and infrastructure automation for Fortune 500 companies
- Designed AWS and Azure architectures for high-availability applications
- Implemented monitoring and observability solutions

DevOps Engineer

2014 - 2017

Company 050, Netanya

- Built AWS infrastructure from scratch for early-stage startup
- Implemented CI/CD pipelines using Jenkins and Docker

- Managed production systems and on-call responsibilities

EDUCATION

M.Sc. in Computer Science

2012 - 2014

Ariel University

B.Sc. in Computer Engineering

2008 - 2012

Technion

SKILLS & TECHNOLOGIES

Technical Stack: Azure Monitor, Ansible, GCP, CloudFormation, New Relic, Terraform, Azure, AWS, Kubernetes

INTERESTS

Traveling, Hiking, Playing video games, Technology podcasts
