---

## PROFESSIONAL SUMMARY

---

Lead Infrastructure Engineer with 10+ years of experience architecting and operating large-scale cloud infrastructure. Expert in multi-cloud strategies, infrastructure automation, and building high-performing engineering teams. Track record of leading infrastructure modernization initiatives and establishing DevOps practices in enterprises. Strong technical leadership combined with hands-on execution capabilities.

## WORK EXPERIENCE

---

### ***Lead Infrastructure Engineer***

*2020 - Present*

Company 179, Holon

- Lead infrastructure team of 10 engineers supporting 100+ microservices
- Architected multi-cloud strategy reducing costs by \$2M annually while improving reliability
- Designed and deployed Kubernetes platform serving 500+ developers across 3 regions
- Established SRE practices including SLO frameworks, error budgets, and on-call rotation
- Led migration from legacy data center to AWS/GCP hybrid cloud over 18 months
- Implemented infrastructure automation reducing provisioning time from days to hours
- Drove adoption of GitOps and infrastructure-as-code across engineering organization
- Mentored senior and mid-level engineers, conducted technical interviews

### ***Senior DevOps Engineer***

*2017 - 2020*

Company 060, Petah Tikva

- Led DevOps transformation initiatives for enterprise clients
- Built CI/CD pipelines and infrastructure automation for Fortune 500 companies
- Designed AWS and Azure architectures for high-availability applications
- Implemented monitoring and observability solutions

### ***DevOps Engineer***

*2014 - 2017*

Company 499, Tel Aviv

- Built AWS infrastructure from scratch for early-stage startup
- Implemented CI/CD pipelines using Jenkins and Docker

- Managed production systems and on-call responsibilities

## MILITARY SERVICE

---

***Specialist, Sayeret Matkal***

*2011 - 2014*

Maintained technical infrastructure and provided support. Worked with cutting-edge technology.

## EDUCATION

---

**M.Sc. in Computer Science**

*2012 - 2014*

Bar-Ilan University

**B.Sc. in Computer Engineering**

*2008 - 2012*

Tel Aviv University

## SKILLS & TECHNOLOGIES

---

**Technical Stack:** Ansible, GCP, Ruby, Go, Terraform, Azure, AWS, Kubernetes
