ABOUT ME

Senior DevSecOps Engineer with 8+ years of experience integrating security practices into DevOps workflows. Expert in container security, secret management, compliance automation, and security scanning in CI/CD pipelines. Proven ability to build secure, compliant infrastructure while maintaining development velocity. Strong background in both security and infrastructure engineering.

EXPERIENCE

Senior DevSecOps Engineer

Company 364, Be'er Sheva

2020 - Present

- Lead security initiatives for cloud-native platform serving 500+ microservices
- Reduced security vulnerabilities by 85% through automated scanning and remediation
- Implemented zero-trust network architecture using service mesh and mTLS
- Built secrets management solution with Vault reducing secrets exposure by 100%
- Designed policy-as-code framework using OPA for compliance enforcement
- Conducted security training and workshops for engineering teams

DevOps Security Engineer

Company 331, Rishon LeZion

2018 - 2020

- Integrated security scanning tools into CI/CD pipelines
- Managed AWS security groups, IAM policies, and encryption
- Performed security audits and penetration testing
- Implemented container security best practices

Security Analyst

Company 347, Tel Aviv

2016 - 2018

- Monitored security events and responded to incidents
- Conducted vulnerability assessments
- Developed security automation scripts
