ABOUT ME

QA Automation Engineer with 2 years of experience in test automation seeking to transition to DevOps. Strong programming skills in Python and experience with CI/CD pipelines from the testing perspective. Familiar with Docker and AWS from QA automation work. Eager to expand infrastructure and deployment automation skills.

EXPERIENCE

QA Automation Engineer

Company 034, Kfar Saba

2022 - Present

- Develop and maintain automated test suites using Python and Selenium
- Write integration tests for microservices using Pytest
- Integrate automated tests into Jenkins CI/CD pipelines
- Set up test environments using Docker containers
- Perform API testing using Postman and Python requests library
- Collaborate with developers to improve testability and code coverage

Manual QA Tester

Company 008, Petah Tikva

2021 - 2022

- Performed manual testing for web and mobile applications
- Wrote test cases and documented bugs in Jira
